Saturday, March 6 9am-3pm.

Registration required. Lunch will be provided

To register or for more information visit:

<http://msnucleus.org/classes/teacherworkshop.html>

Math Science Nucleus was founded in 1982 and is a non-profit educational and research organization composed of scientists, educators and community members. It serves as an online resource center to assist school districts, teachers and administrators worldwide. All proceeds go toward our educational services and programs .

Natural History Museum
4074 Eggers Drive, Fremont

Discover the local natural history through science. In our Fossil Hall touch million year old fossils of mammals that once roamed the East Bay. Explore the Hall of Natural History and the Rock and Mineral Hall. Experience the microscopic world in the Hall of Small Wonders. Great hands-on fun and education for the whole family. Free to members, \$2.00 per person for non members. Check out our website for field trips, classes and events at this site.

Tule Ponds at Tyson Lagoon

1999 Walnut Ave, behind the Fremont BART Station

At our wetland center we offer field trips for K-12 Grade students on the importance of urban wetlands. Schools can participate in a number of activities depending on grade level. Volunteer opportunities available on Saturdays for Eagle Scouts, academic research projects, and high school student community service hours. Free events and tours are offered at this site throughout the year. Funding for classes and events at this site provided by the Alameda County Flood Control and Water Conservation District.

MAMMOTH DAY
at the Math Science Nucleus
Saturday, May 22 11am-4pm

Activities include:
Mammoth Safari
Mammoth Mary readings
Fossil Hunt
Free autographed photo by Boy
Paleontologist for the first 100 families
Lots of hands-on activities and games

Great Family Fun!

Free Open House at Tule Ponds
Wet & Wonderful Water
Saturday, April 10 11am-5pm

Activities include:
Bubblemania.
Storm water filtration demonstration
Watershed Wildflowers (plant your own)
H₂O molecule craft activity
Tule Pond tours throughout the day

For more information on these and other events at the Math Science Nucleus and Tule Ponds at Tyson Lagoon visit: <http://msnucleus.org/events.html>

Children's Classes
